## Beneath the Neon Life and Death in the Tunnels of Las Vegas

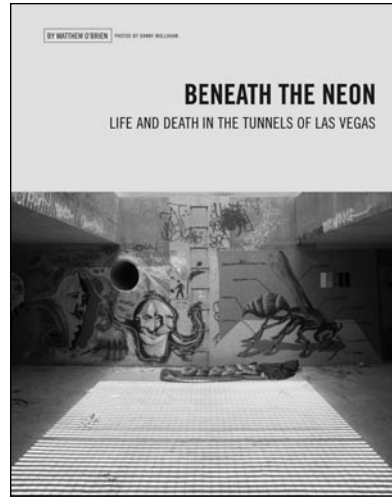

Matt O'Brien

The catacombs of ancient Rome served as houses of worship for Christians. The sewers of Paris yielded gold, jewels, and relics of the revolution. Slave trade thrived in underground chambers along Portland, Oregon's, waterfront. And thousands of street people lived in the subway and train tunnels of New York City.

What secrets do the Las Vegas storm drains keep? What discoveries wait in the dark? What's beneath the neon?

Armed with a flashlight, a tape recorder, and an expandable baton, *Las Vegas CityLife* writer-editor Matt O'Brien explored the Las Vegas flood-control system for more than four years.

*Beneath the Neon* chronicles O'Brien's adventures in subterranean Las Vegas. He follows the footsteps of a psycho killer. He braces against a raging flood. He parties with naked crackheads. He learns how to make meth and find art where it's least expected. He discovers that in many ways, he prefers underground Las Vegas to aboveground Vegas, and that there are no pots of gold under the neon rainbow.

## **Cullotta** **The Life of a Chicago** **Criminal, Las Vegas Mobster,** **and Government Witness** Dennis N. Griffin and Frank Cullotta

From burglary to armed robbery and murder, infamous bad guy Frank Cullotta not only did it all, in *Cullotta* he admits to it—and in graphic detail.

This no-holds-barred biography chronicles the life of a career criminal who started out as a thug on the streets of Chicago and became a trusted lieutenant in Tony Spilotro's gang of organized lawbreakers in Las Vegas. Cullotta's was a world of high-profile heists, street muscle, and information—lots of it—about many of the FBI's most wanted. In the end, that information was his ticket out of crime, as he turned government witness and became one of a handful of mob insiders to enter the Witness Protection Program.

"Frank Cullotta is the real thing," says Nicholas Pileggi in the book's Foreword, and in these pages, Cullotta sets the record straight on organized crime, witness protection, and life and death in mobbed-up Las Vegas.

## Gay Vegas A Guide to Alternative Las Vegas

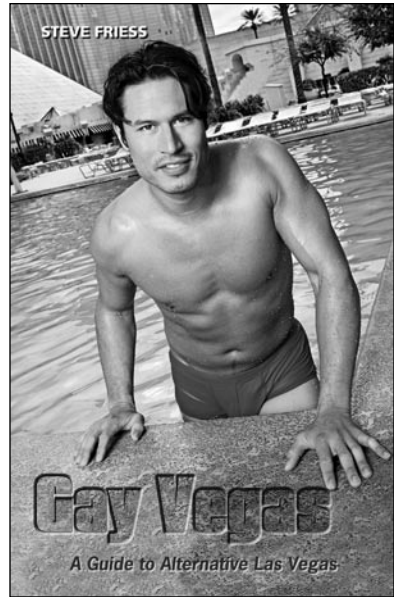

Steve Friess

Vegas as a queer fantasyland? You bet!

These days, the ultimate heterosexual adult playground is so awash in pink and lavender, in hot guys and same-sex subtexts, that Bugsy and Sinatra would hardly recognize the town. Twenty-first century Sin City is a magnet for gay and lesbian travelers and a mecca for relocating gays. The major hotel-casinos conduct gay weddings. Shows such as *Elton John*, *Zumanity*, *Mamma Mia!*, and *Le Rêve* couldn't be more overtly homoerotic or gay-friendly. Even the mayor gets in on the act—he showed up for the opening of a gay club in drag!

*Gay Vegas* addresses the needs—and desires—of both visitors and locals. Get a brutally honestly, completely un-PC take on where to go and, perhaps even more important, where not to go when you touch down. And don't miss the pictorial on Vegas' most phallic!

This is the only gay guide to Las Vegas you'll ever need.

From the 1970s through the mid-1980s, the Chicago Outfit dominated organized crime in Las Vegas. To ensure the smooth flow of cash, the gangsters installed a front man with no criminal background, Allen R. Glick, as the casino owner of record, Frank “Lefty” Rosenthal as the real boss of casino operations, and Tony Spilotro as the ultimate enforcer, who’d do whatever it took to protect their interests. It wasn’t long before Spilotro, also in charge of Vegas street crime, was known as the “King of the Strip.”

Federal and local law enforcement, recognizing the need to rid the casinos of the mob and shut down Spilotro’s rackets, declared war on organized crime.

*The Battle for Las Vegas* relates the story of the fight between the tough guys on both sides, told in large part by the agents and detectives who knew they had to win.

The buzzword in blackjack these days is MIT. The book *Bringing Down the House*, along with several TV documentaries, chronicled the casino exploits of this team of college students and focused national attention on the fact that casino blackjack can be highly profitable when played properly. Living the high life by beating the casinos at their own game is a titillating prospect—only most players lack the skills. *Blackjack Blueprint* shows you how to play like an MIT pro.

From the turn of the first card to getting out of a foreign country with a suitcase full of winnings, this is the most comprehensive training for blackjack players ever written. *Blackjack Blueprint* teaches the same strategies that the MIT players used to “break Vegas,” as well as a few that they never disclosed. And best of all, these techniques can be employed part-time as a money-making hobby, just as the author has applied them for years while maintaining his day job at a New York Fortune 500 company.

**RICK “NIGHT TRAIN” BLAINE** is a career executive with a Fortune 500 company whose hobby for the past 25 years has been beating the casinos at blackjack. Well-versed in all aspects of winning play, Blaine has excelled both solo and as a blackjack-team player and leader. Blaine has earned a significant (mid-seven-figure) second income and traveled the world playing blackjack. He’s particularly well-known in blackjack circles for his ability to teach new players how to beat the game. He lives in New York.

**Whale Hunt In the Desert**  
**The Secret Las Vegas of Superhost Steve Cyr**  
Deke Castleman (2004)

The world's largest gamblers, known as whales, can make \$50,000-\$250,000 bets—not cumulatively over a trip, but on every hand, hour after hour, day after day. A whale's wins and losses can top out at \$20 million to \$30 million during a typical Las Vegas weekend. This can and does impact a huge publicly traded casino corporation's entire quarterly earnings.

Of course, whales don't just swim up to a casino with the tide. With only a handful of them in the world, they're actively hunted by casino marketing executives, also known as hosts.

*Whale Hunt in the Desert* is the story of one such host, Steve Cyr.

The book delves deeply into the whale hunt, mostly through the saga of this superhost: where he came from; how he employs casino perks such as limos, penthouses, shopping sprees, trips abroad, show-up money, discounts on losses, and sex to hook the big fish; and what it's like to be a part of the lifestyles of the most blubbersome gamblers on the planet.

Ian Andersen (2003)

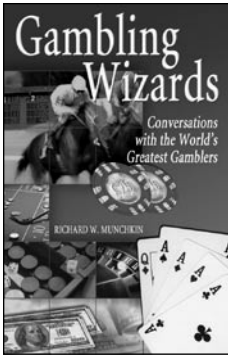

In 1975, Ian Andersen left the mundane world of corporate America to play high-stakes blackjack. He described his conquests in the classic *Turning the Tables on Las Vegas* (Vanguard Press). Unlike the early mathematics-based blackjack tomes, *Turning* concentrated on the psychological aspects of winning.

Now, after 25 more years in the casino trenches, Andersen has written his long-awaited sequel, *Burning the Tables in Las Vegas*, which describes his personal program for success in blackjack and poker, as well as life's greater games.

This new edition of Andersen's second classic book on casino comportment is revised, updated, and contains three new chapters directed primarily at the market's largest sector—the mid-level gambler.

**The Killing of Tupac Shakur**

Cathy Scott (2002)

Over 100,000 copies in print!

Poet, movie star, revolutionary—Tupac Amaru Shakur was the most popular rapper in the world.

No one symbolized the violence at the heart of gangsta rap more than Tupac, and he ultimately fell victim to that violence, gunned down in a drive-by shooting in Las Vegas at age 25.

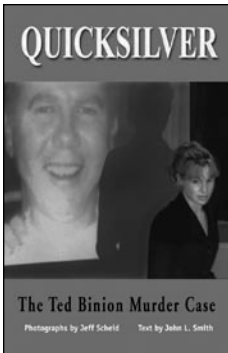

Who did it and why? This is a gritty account, including exclusive photo evidence, about the unsolved murder of Tupac: the failed investigation, the rap wars, the subsequent killing of Biggie Smalls, the Bloods-Crips connection, and the

many possible motives leading to the murder that rocked the music world.

The new edition includes updates on associated events, such as the murders of key witness Yafeu Fula and suspected gunman Orlando Anderson, the incarceration and subsequent release of Suge Knight, and the continuing violence among gangs and rap stars.

**Policing Las Vegas**  
**A History of Law Enforcement in Southern Nevada**  
 Dennis N. Griffin (2005)

*Policing Las Vegas* follows the evolution of law enforcement in Las Vegas and Clark County from the days of night watchmen and cops who carted drunks to jail on horseback to today's acclaimed Metropolitan Police Department. The transition wasn't always smooth. There were plenty of power struggles, political battles, and rogue cops. But there were also many acts of valor and heroism, and a number of officers made the ultimate sacrifice.

This book is filled with stories about the colorful characters and events on both sides of Las Vegas law enforcement: cops and criminals, deeds and misdeeds. They're drawn from history, legend, and the personal accounts of many people who policed Las Vegas. *Policing Las Vegas* also contains more than 100 photographs, some of which are being made public for the first time.

Kenny Guinn was elected the governor of Nevada in a 1998 landslide. But the outcome was determined long before a single voter stepped into a polling booth. In *The Anointed One*, Nevada’s foremost political reporter, Jon Ralston, argues that the power and money of the casino industry, combined with the behind-the-scenes string-pulling of a powerful and ruthless cabal of political insiders, render important Nevada elections a mere formality.

*The Anointed One* isn’t just the story of how an inexperienced and shaky candidate waltzed away with the highest office in the state. It’s a biting commentary on the inner workings of the Nevada political machine.

### Fly on the Wall

#### Recollections of Las Vegas' Good Old, Bad Old Days

Dick Odessky (2000)

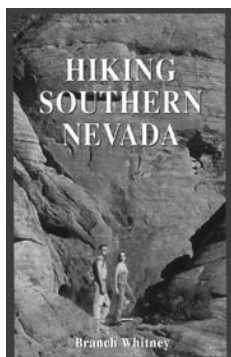

Imagine what it must have been like to be in Las Vegas during its most glamorous and eventful years: the 1950s, when you could rub elbows with powerful politicians, famous entertainers, and notorious gangsters; the 1960s, when Howard Hughes' corporate invasion changed casinos forever; and the 1970s, which were immortalized by the movie *Casino*.

Back then, "the boys" ran the town, dinner shows were a dollar, and vacant lots on what is now the Strip sold for \$5 an acre. Tallulah played baccarat, Shecky shot dice, and Frank dealt blackjack.

As a reporter for two of the city's most respected newspapers and a publicist for two of its most infamous casinos, Dick Odessky was in the thick of it—the proverbial fly on the wall. His recollections of Las Vegas' good old, bad old days put you in the thick of it, too.

**Rhombus**

Bob Gore (2000)

Deep in the Nevada desert, on a military base that doesn't exist, the U.S. government has developed the most sinister war-plane ever to rule the skies. Its name is Rhombus and it's the pinnacle of man's genius applied to the art of mass destruction.

Rhombus is death come alive.

Lt. Michael Christum is America's finest aviator, a supreme and lethal warrior. A man of honor, his love for his wife and children are as profound as his sense of duty. Christum will pilot Rhombus. Time after time he's answered his country's call, unflinching, unailing. But this mission is different. If it fails,

it will mean the eradication of mankind.
